THE GRADUATES RE-UNION MAY BE DEFERRED FOR AT LEAST ANOTHER TWELVE MONTHS

This Step May be Taken at a Meeting of Corporation Sometime in the Near Future

MANY REASONS FOR AND AGAINST THIS ACTION

Insufficient Time for Proper Preparation Appears to be Chief Objection

There has recently been a rumour current in university circles to the effect that the big graduate re-union which was planned to take place next Summer has been definitely cancelled. Enquiries instituted by the Daily have succeeded in eliciting authoritative information to the effect that this step has not yet been taken but that there is a possibility that the University authorities may see fit to postpone the re-union for the present at least.

There has never been any friction over the matter between either of the Committee's concerned with the arrangements. It is the desire of both the finance and re-union committees to make the celebration a successful one in every way, when it does take place. There are, however, two sides to the question.

The finance committee consider that the work of preparation is hardly forward enough to warrant a successful gathering as the committee feel that as large as possible a body of graduates should be gathered together for such a gala occasion. The committee in no way object to spending the money necessary although they believe that the estimate of \$5,000 for the expenses which will be incurred is too high.

The re-union committee on the other hand say that since the appointment of a secretary everything possible has been done to get addresses and they believe that something could be done this year. They do not expect a record breaking crowd but they feel that a beginning must be made sometime and that even if a very large number of graduates do not come it is worth while doing something this year. They believe that a sufficient number of grads will come back to justify the outlay of any money required.

Nothing definite, however, will be done in this matter until after Principal Peterson's return from New York. Sometime after his arrival there will be a meeting of corporation to consider the advisability of holding the re-union and a definite announcement will then be made.

FOUR MEMBERS OF THE STUDENT'S COUNCIL MAY BE ELECTED ON MARCH 7TH

Annual Meeting of Athletic Association Takes Place on Above Mentioned Day

THREE MAJOR CLUBS MAY MEET SAME NIGHT

As a Result Four Men will in all Probability be Elected to Important Offices

At last night's meeting of the Student's Council, it was decided to hold the annual meeting of the Athletic Association, of which every undergraduate is a member, on the night of Friday, March 7th. In conjunction with this meeting it is probable that the three major Clubs, Football, Hockey and Track, will also hold their meetings. If this comes to pass the meeting will be an extremely important one, as four representatives will be elected to the Council.

In view of the fact that the responsibilities of the latter body are increasing every year, it is essential that the men best qualified to fulfil the duties in connection with Council work should be chosen. The present Council, therefore, hope that there will be an exceptionally large attendance at next Friday's meeting and that the students will see that the men nominated are well qualified for the work they will have to do.

It was also announced last night that the election of a president for the Student's Council will take place on March 18th. All nominations must be in by March the 8th, and must be signed by twenty-five members of the Society. The annual meeting of the Student's Society takes place the following day at ten o'clock in the morning. At this meeting reports of the various clubs will be read and a general report of the Council's finances for the past year.

It is interesting to note that there are already five nominations for the presidency of the Athletic Association. The men who have been nominated are Messrs Hughes, Macdonald, Herschorn, Croxley and Smith. As yet there have been no definite announcements in regard to the presidencies of the three major clubs, but it is rumored that in every case strong men are under consideration, and that many representative students will be nominated for these offices.

The nomination of candidates for the presidency of the Council is also still to take place and much interest is being aroused as to the identity of the men who will run for the office, the highest in the gift of the undergraduates.

ANNOUNCEMENTS

Y. M. C. A.

The financial year of the Y.M.C.A. ends today and as there are some three hundred dollars in dues outstanding the Association requests that these be paid up today in order to facilitate the balancing of the accounts.

MEDICAL SOCIETY

There will be a meeting of the Medical Society this evening. Two papers will be read, one by Dr. Henry on 'The Wonders of Modern Surgery', and the other by Dr. Scrimger on 'The Treatment of Fractures' with special reference to the method of Champounerre. A musical programme also be provided.

Editorials

The results of the recent week of benefit performances given by the Manchester Players in aid of the work carried on by the University Settlement were recently announced in our columns. One interesting point in connection with Settlement work has occurred to us as a result of a consideration of this matter, and that is the effect of publicity on such work. During the past three weeks the Settlement has been kept constantly before the eyes of the newspaper public and its aims and efforts have been given unusual prominence.

Many people interested and experienced in work such as that carried on by the Settlement on behalf of the poorer classes in Montreal hold decided opinions on this matter. It is their belief that undue publicity is harmful as the people among whom the work is carried on resent the suggestion that they or their children are accepting charity.

Dr. Dale recently stated that the enthusiasm aroused by the recent benefit week was the most important feature of the results attained. The enthusiasm to which he refers was largely what might perhaps be called social and was undoubtedly engendered by the wide publicity given to the Settlement's efforts and achievements in its field of work. The questions which now arise are: Will there be a consequent reaction among the people whom the Settlement aims to benefit; and, will the publicity attained hinder or help the work? The next year in the Settlement's history should go far towards providing an answer to these questions, at least in so far as Montreal is concerned.

We advertise this week for men to try for positions in the athletic and dramatic departments of the Daily. For work along the above mentioned lines experience, though desirable, is not absolutely necessary and the successful candidates will derive many benefits from their connection with the paper next year. If you have a liking for the theatre and an interest for dramatic work the Daily can offer you advantages you would otherwise perhaps find difficult of attainment. We pride ourselves somewhat this year on the sincerity and merit of our dramatic criticisms, and we wish to equip men now for keeping up the standard of next year's paper along the same lines.

The athletic men will also enjoy privileges, as the Daily representatives travel with the College teams and see all the out of town games. In addition to this they are provided with excellent seats for all home games.

While we are on the subject of applying for work on the Daily we would also like to mention the fact that it is not too late for men to apply for positions on the general staff of the paper for next year. It is very desirable that men who intend to work on the paper should receive a certain amount of training this year in order to fit them for positions on next year's staff. If you would like to try your hand at newspaper work next year drop into the office sometime and have a chat with some of the editors.

Intercollegiate Notes

Syracuse.—Tambourine and Bones is the name of the dramatic fraternity of Syracuse University.

California.—Enrollment in the department of agriculture has grown from 230 in 1910 to 455 at the present time.

Brown.—14 men of last year's football squad have reported for work, and will practice signals for the time being.

Pennsylvania.—Students at the University of Pennsylvania have been granted a reduction in rates for the grand opera season.

Yale.—The freshman crew outlook is rather discouraging. The men, although unusually heavy, lack experience. About eight men are out.

Washington.—Thirty-six crew men on the water last night and several on the side-lines was the result of the coach's call.

Washington.—An agitation is now on foot to provide a 'trophy room' for the cups and so forth won by University teams.

Kansas.—Correspondence published in regard to the institution of a Men's Union at Kansas is exciting a great deal of interest and comment.

Washington.—Appropriations are now before the State Legislature to grant to the University of Washington over \$1,000,000, and the State College about \$760,000.

Oregon.—A vigilance committee of six 1910 men has been appointed at Oregon, to see that all freshmen conform to the practice of wearing the regulation green caps.

Michigan.—Plans have been proposed to form a canoe club at the University of Michigan, to use the lake being formed by the construction of a dam across the Huron River.

Kansas.—Nearly 50 men answered the call of the baseball coach at the University of Kansas, and started the season's work with the base-sliding and gymnasium work.

Kansas.—The Registrar of the University of Kansas has just compiled statistics that show that 87.5 per cent. of the students attend church, and that only 273 out of 2187 have no preference.

Kansas.—The foundry at the University of Kansas has just completed an order of 7750 pounds of window weights for a state firm and is now engaged in casting pots for a fireless cooker, the invention of one professors.

THIS FRESHMAN NEVER
MISSES
HIS 9 O'CLOCK LECTURES

Has Novel Wager which Forces
Him to Get up in the
Morning

A novel method to ensure rising in
time to get to nine o'clock lectures
has been adopted by an ingenious
freshman in Applied Science. He sets
his alarm clock for 7:30 every night,
and the moment it wakes him up he
jumps out of bed, no matter how
desirous he may be of staying a little
longer in his downy couch. The
reason for such precipitancy is as
follows:

The freshman in question rooms
with an Arts undergraduate who has
no nine o'clock lectures and so need

not arise at such an early hour. The
Science man, however, has a wager
with his room-mate whereby he forfeits
fifty cents every time that he
stays in bed for more than a minute
after half past seven.

As he explains it himself a lecture
is not hard to miss, but fifty cents
is a large sum at this time of the
year. He is enthusiastic about the
success of his scheme, and is urging
his friends, who are similarly situated,
to try it.

Yale.—Captain Henry Ketcham of
the Yale football team announced
last week that for the first time in
its history the Eli eleven will be instructed by a paid coach next year.

Washington.—During the roll call
of a class at Washington University,
a stranger entered, and hearing the
numbers "fifty-one, fifty-two," etc.,
being called, without any hesitation
called out "One Dollar!"

NOTES AND COMMENTS

Much speculation has been caused
in sporting circles by the announce-
ment that window-jumping would be
a feature of the annual sports at the
R.V.C. and many wagers have been
laid by ardent fans holding diver-
gent opinions as to what form of
exercise this really is.

The Capper Cup Games are excit-
ing much interest around the Uni-
versity. Yesterday the chief subject
of conversation in both the Engineer-
ing and Arts Buildings was the com-
ing game between Science '14 and
Arts '15.

Internes of the General and Royal
Victoria hospitals came together in a
strenuous contest at the Victoria
rink Wednesday, the Generals win-
ning 6-2. Although several of the
participants had to retire for re-
pairs, no major operations were nec-
essary, and the game was finished
without resorting to the use of the
scalpel.

THE R. V. C. HOCKEYISTS
PLAYED
A FAST GAME RECENTLY

Juniors Defeated Sophs. in
Close Contest

The liveliest game of hockey played
this season on the R.V.C. rink
took place on Wednesday afternoon,
when the Juniors and Sophomores
met in a close and well-fought match.
As the players are fast giving up
their former customs of all being
with one accord in one place the am-
using incidents formerly so notice-
able have almost entirely disappeared.
The score stood 4-3 in favor of
the Juniors. The teams lined up as
follows:

Juniors Sophs.
I. McCaw Centre L. De Muth
C. Morgan R. wing M. Hibard
V. Henry L. wing M. Macoun
L. Leslie Point Z. Smith
M. Longworth Goal M. Bennetts.

versity. Yesterday the chief subject
of conversation in both the Engineer-
ing and Arts Buildings was the com-
ing game between Science '14 and
Arts '15.

Internes of the General and Royal
Victoria hospitals came together in a
strenuous contest at the Victoria
rink Wednesday, the Generals win-
ning 6-2. Although several of the
participants had to retire for re-
pairs, no major operations were nec-
essary, and the game was finished
without resorting to the use of the
scalpel.

THE R. V. C. HOCKEYISTS
PLAYED
A FAST GAME RECENTLY

Juniors Defeated Sophs. in
Close Contest

The liveliest game of hockey played
this season on the R.V.C. rink
took place on Wednesday afternoon,
when the Juniors and Sophomores
met in a close and well-fought match.
As the players are fast giving up
their former customs of all being
with one accord in one place the am-
using incidents formerly so notice-
able have almost entirely disappeared.
The score stood 4-3 in favor of
the Juniors. The teams lined up as
follows:

Juniors — Sophs.
I. McCaw Centre ... L. De Muth
C. Morgan R. wing ... M. Hibard
V. Henry L. wing ... M. Macoun
L. Leslie Point ... Z. Smith
M. Longworth Goal ... M. Bennetts.

UNDERGRAD ORCHESTRA CONCERT WILL TAKE PLACE SOON

The Concert will be Marked
by Distinct Musical Fea-
tures

Although the exact date has not yet been definitely announced, it is understood that the Undergraduate Orchestra Concert is to take place in the Royal Victoria College in the course of the next two weeks. The exact date will be announced shortly.

The practice held last night was a distinct success in every way. The Orchestra has never been in such excellent form. Especially noticeable is the excellent handling of the brass instruments. The brass solo work, especially, is deserving of praise.

The vocal soloist on the occasion of the next concert will be Miss Beatrice Fraser, contralto, of Erskine church choir. A concerted selection from William Tell, will be rendered by the brass. The McGill Mandolin Club will also provide several selections. A string quartette will likely be a feature.

The programme in full will be announced within the next few days.

WESTERNERS WILL HEAR ADDRESS BY ELOQUENT PROFESSOR

Dr. Leacock will Speak to
the Club on Monday Night

The Western Club will hold its next meeting on Monday night at eight o'clock, in the McGill Union dining-hall.

An address will be given by Dr. Leacock, his subject being "The Western Spirit." Every man from the West should take this opportunity of hearing Dr. Leacock, who is certain to treat this very interesting subject in a most entertaining manner. This "Western Spirit" is something that every man at McGill, who comes from the West has, but which he is unable to explain. Easterners marvel at and admire this spirit which holds together the men, from our fertile wheat fields and the orchards and mines of British Columbia.

Besides Dr. Leacock's address there will be a short programme of musical numbers, followed by a discussion of the regular business of the Club. Several important questions are going to be brought forward which deserve the consideration of every Western man at McGill.

The Club has not met for some time, owing to the fact that there have been so many college activities going on lately. In view of this fact the Executive of the Club hope, that the true Western Spirit will be shown very strongly; and, that all the members of the Club will turn-up and make this the banner meeting of the year. Every Western man in College whether he is a student or a professor, is invited to be present at the meeting.

All arrangements have been concluded for the meeting and the Executive have provided to have refreshments served.

FRENCH CLUB TO STAGE TWO PLAYS TO-MORROW EVENING

Performance will Take Place
in the R.V.C. Hall

Tomorrow evening the French Club will present two comedies in the R.V.C. Hall. As this will be the last major social event of the season, a large attendance is expected. The first play, which is De Musset's one-act comedy "Un Caprice", will be given by Mlle. Greterin, the popular instructress in French at the R.V.C. Miss Antoinette Seiden, and Professor Dr. Du Roure. No doubt the students will enjoy seeing members of the faculty in the role of actors and actresses.

The second play which is also of one act will be staged by members of the French Club none of whom is native French. The comedy is "L'Anglais tel qu'on le parle", by Tristan Bernard, and the best of it is that several of the parts are entirely or partly in English. A young and beautiful English lady has eloped to Paris with a French gentleman. They are pursued by an irate father, who speaks no French, and all become involved in affairs with French police. Notwithstanding the efforts of a bogus interpreter they are finally extricated and a general reunion takes place. The play contains many amusing situations, which fact, added to the personal popularity of the actors should mean an enjoyable evening.

Oberlin.—Oberlin College's glee club is making a two thousand mile trip.

THE STUDENT WORKERS FORM UNION SAYS MICHIGAN DAILY

Following Article Illustration
of Difference Between Mon-
treal and Ann Arbor

Condemning existing conditions under which university men are compelled to work in Ann Arbor boarding houses for an average wage ranging from seven to nine cents per hour, working students have inaugurated an active campaign aiming towards the organization of a union which will endeavor to obtain shorter hours, higher pay and more sanitary environment for the workers.

The committee in charge of the campaign, consisting of Robert A. Hess, '13L, Melvin E. Case, '15E, and Louis D. David, '14L, is planning to circularize the 1,000 working students in the university within the next fortnight to call a mass meeting for public discussion of the question.

The movement is the outcome of a

HARRIER CLUB MEETING FOR THE ELECTION OF OFFICERS

Club had a Successful Sea-
son in Many Ways

Yesterday afternoon the Harrier Club held their annual meeting for the election of officers and the transaction of other business, including the reading of the retiring honorary secretary treasurer's report. Mr. J. T. Wall, the President of the Club for the past year, was in the chair, and there were a fair number of members present.

After the minutes were read, Mr. Bruneau read the secretary's report on the past season's work. Although the Club did not this year succeed in winning a championship there were several bright spots in the season's record. For one thing, the turn out of men had been larger than usual, and for another, the expenses of the Club had been very much reduced.

The meeting took place in Strathcona Hall, and the following officers were elected:—

Hon. President—Dr. Macmillan.
President—R. R. Struthers.
V. President—K. Hague.
Sec.—Treas.—W. C. Lowery.
Captain—A. Russell.
Representative from Arts—H. H. Hemming.
Representative from Science—E. S. Cole.
Representative from Medicine—J. D. Moore.

The election of a representative from Macdonald College was left over for the Athletic Association of that institution to attend to.

The prospects of the Harrier Club are very bright, as many of last year's team will be back and there is a lot of promising new material in sight.

The classes in Medicine seem to have dropped out of the hockey games for the Inter-class trophy. This is to be regretted as there ought to be ice for two weeks more at least; and if the Science '14 vs Arts '15 fixture is played soon there will be no more games to be played in this competition.

The Class game between Arts '15 and Science '14 should be a most interesting battle. The Juniors have, what might be termed, an all-star aggregation; but the Sophs have practiced together all season, and the easy manner in which they have won their games, demonstrates that they are a septette which is not to be trifled with.

special features of each style and period were used for illustrative purposes, such as the great cathedral St. Mark's, of which several excellent slides were shown. Perhaps the most outstanding feature of the period was the very great use of mosaics. Of special interest were the descriptions of the evolution of ornamental work as seen on medieval doors.

The second paper was read by Mr. Hyde on the general title of Medieval Furniture. Mr. Hyde started, however, with the earliest evidence of furniture and traced its history up to the close of the medieval period. He described the furniture used by the various nations in early times, and showed how the domestic life of the period affected very materially the forms of chairs, beds, etc.

The chief point brought out was how new needs developed new furniture.

members and illustrated by lantern slides.

The first paper read was by Mr. Lawson on Craftsmanship in the Middle Ages. Here he traced the history of art in its various forms showing the effect which the thought and politics of the time had had upon the evolution or architectural style in its different periods.

The writer commenced with the Romanesque style and showed how it had branched into Byzantine and Gothic, the one being the eastern, the other the western product. Some

general discussion at a recent meeting of the Intercollegiate Socialist society at which several working students recounted their personal experiences in the boarding houses. At the close of the discussion the society refused to undertake the campaign to organize the working students and a self-appointed committee was formed to carry out the work. "We find that students are compelled to work two and one-half hours for a single meal worth 20 cents," declared Robert A. Hess, chairman of the committee, last night. "In many instances they are compelled to eat what's left and usually this is not much. For this work hired girls are paid \$4.00 a week and board, whereas figures show that the rate actual-

ly paid to students is seven to nine cents an hour.

"The cause for this is the fact that there are such long lists of students ready to work under any conditions because they are unable to make organized demands. If a student does not work hard enough to suit the boarding house keeper or growls about what he gets, he is fired peremptorily. A call to the labor bureau usually brings half a dozen of applicants for his position.

"Freshmen because of their ignorance of conditions suffer more than others by this system.

"Of course, there are exceptions, such as the place at which I am now employed. Unfortunately there are not many other places like it."

SYNOPSIS OF DOMINION LAND REGULATIONS.

A NY person who is the sole head of a family or any male over 18 years of age, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-agency for the district. Money by proxy may be made in any agency, on certain conditions by father, mother, son, daughter, brother or sister of a mining homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 34 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

A certain district a homesteader in good standing may preempt a quarter section along the homestead. Price \$3.00 per acre.

Duties.—Must reside upon the homestead or pre-emption six months in each of six years and date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price \$3.00 per acre. Duties.—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$200.00. W. W. CORY.

Kansas—Seventeen University Fellowships of \$280 each have just been declared open for competition among graduates of universities of recognized standing.

...

Kansas.—Gifts to the University School of Pharmacy of books valued at more than \$3,000 were announced today at the office of the chancellor.

An entire library of 1,127 volumes worth \$250 each has been presented to the university by Parke, Davis & Co., of Detroit, Mich., manufacturing druggists. Journals and books covering medical and pharmaceutical subjects are included in the gift. The company also donated a cash fund of \$400 for binding purposes.

**A HAIR RAISING STORY
SUBMITTED
BY FOOLISH FRESHMAN**

Portrays Narrow Escape from
Critical Situation

Yesterday we received a communication signed "Freshman" enclosing a story which the writer suggested might be of use to the Daily. The author pictured a pale faced editor staggering into the Daily office and unfolding a terrible tale of peril undergone in a barber's chair, on St. Catherine Street. The said editor was supposed to have been partly shaved when the tobisorial artist occupied in removing his hirsute growth suddenly started to stroke his clients throat with the back of the razor and inform him of his intention of severing an artery. Fortunately the proprietor of the shop seized his underling before he could commit any damage to the agitated aspirant for journalistic honors. The melodramatic barber was there escorted to the police station, where it was discovered that his brain had given way and that he was a lunatic.

The only drawback to the above tale is that it is a very hackneyed old chestnut. Besides, if anybody's brain was in such a condition that it might go out of working order suddenly, it was far more likely to be that of an editor of the Daily than a mere barber.

**PROFESSOR AT KANSAS
UNIVERSITY
OBJECT TO VALENTINES**

Burlesque Cartoons Must be
Suppressed There

"If any student with malicious intent sends a burlesque valentine to any member of the faculty because of personal grudge he should be prosecuted with a conviction in not less than three hours, and if the same person be found to have committed two such offences he should be flunked in all the courses taken under the instructor to whom said valentines be sent."

The above is Section 1, Art. 1, of the proposed resolution that will no doubt be passed by the faculty for the purpose of suppressing the sending of comic valentines.

Recently a history professor was sent a valentine portraying said individual, corpulent indeed, with glasses riding his prominent nose and his whole person exaggerated in a most humiliating manner. This was the last straw, he said, and he immediately began to interest other members of the faculty in an anti-valentine organization with the above result.

It Can Be Done

Somebody said that it couldn't be done.

But he, with a chuckle, replied that "maybe it couldn't," but he would be one.

Who wouldn't say so till he'd tried. So he bucked right in, with the trace of a grin.

On his face. If he worried, he hid it.

He started to sing as he tackled the thing.

That couldn't be done, and he did it.

Somebody scoffed: "Oh, you'll never do that;

At least no one ever has done it."

But he took off his coat and he took off his hat.

And the first thing we knew he'd begun it;

With the lift of his chin, and a bit of a grin,

Without any doubting or quidding;

He started to sing as he tackled the thing.

That couldn't be done, and he did it.

There are thousands to tell you it can not be done,

There are thousands to profess failure;

There are thousands to point out to you, one by one,

The dangers that wait to assail you;

But just buckle in with a bit of a grin,

Then take off your coat and go to it;

Just start in to sing as you tackle the thing

That "can not be done," and you WILL do it.

—Unidentified, The Argosy.

Williams—The University baseball team has arranged a game with the Chinese University of Hawaii.

THINGS THEATRICAL

HIS MAJESTY'S

CECIL BROOKIN
With Miss Horniman's Co.

The fame of Galsworthy as a playwright, is now so firmly established that the critics look eagerly for any new work from his pen. It had been hoped to give Montreal "Justice" as well as "The Silver Box", this season, but it was found impossible for the company to include this remarkable play in its repertoire. "The Silver Box", however, was one of the plays which everybody who saw it last year agreed was an intensely interesting and impressive work, and as long ago as when the present season was announced there were calls for this work. It is this evident popularity, and the renewed success that is indicated for today's production, that has influenced the management to give four performances of "The Silver Box" next week.

The cast has already been announced. It is full as strong as that of last year, and from present demands there is every reason to believe that its popularity this season will be enhanced.

Following the Galsworthy play, there will be two performances of "The Rivals". No better work in Old English classical comedy has ever been seen in Montreal than this revival, which has been admitted generally to possess the double merit of being both technically sound and in regard to atmosphere intensely realistic. Mr. Milton Rosmer will take

FRANK FORBES ROBERTSON,
With Miss Horniman's Co.

the part of Capt. Absolute, Mr. Ernest Bodkin his former role as Sir Lucius O'Trigger—a role which won for him the highest praise in London—and Mr. Percy Foster, that of Bob Acres. The closing performances of the week, Monday, Tuesday and Wednesday matinee and evening being given to "The Silver Box," and Thursday and Friday evenings to "The Rivals"—will be Goldsmith's famous comedy, "She Stoops to Conquer", which will be played at both performances on Saturday. Last season this play was applauded by large audiences whose enthusiasm was unbounded. There have been many requests for its production this season and these are to be met. Numerous changes in the cast all indicate a highly interesting evening. Miss Irene Rooke replaces Miss Edyth Goodall, as Kate Hardcastle; Mr. P. Foster will take the role of Tony Lumpkin, formerly played by Mr. Bibby. Both Milton Rosmer and Frank Darrah retain their old parts as Marlow and Hastings, respectively.

The enthusiastic reception accorded Arnold Bennett's delightful comedy, "What the Public Wants", and the general desire for a repetition performance, have influenced the management to include this play in the repertoire for the closing week. The dates will be announced later, but at least two more performances will be given before the Horniman Players leave Montreal to fulfil a four week's engagement in Chicago.

**INTERVIEW WITH DEAN
OF MEDICAL FACULTY**

Dr. Shepherd Makes Many Interesting Announcements to
Daily Reporter

"We are just going on in the even tenor of our way—not saying much but doing a lot." So said Dr. Shepherd, Dean of the Faculty of Medicine yesterday, when interviewed by the Daily.

"Of course this early in the year no definite announcement in regard to a change with staff or unusual change in the Course of Study can be made. But it is interesting to note that the regulation of the General Hospital Governors which so recently came into force, that is, the age limit of visiting physicians to that institution has been fixed at sixty-two. In accordance with the rule Dr. Blackadar has been replaced by Dr. Gordon Campbell in the Clinical Medicine Department."

The Roddick Doranion Licensing Bill was mentioned. Dr. Shepherd stated the next meeting of the committee will be held in June and it is expected that the new regulation will be in force by next October. Probably examination Centres will be located at Halifax, Montreal, Toronto, and Winnipeg.

"Have there been many changes in the method of teaching medicine in the last quarter of a Century?" The "Daily" man ventured. The Doctor leaned back most comfortably in his swing chair, half closed his eyes and assumed an expression of thoughtfulness and reminiscence.

"O yes, there has been a great change. In the old days the method was didactic. In fact when I came to McGill in '75 there was only one demonstrator in the whole University—and that was in Anatomy and I was the demonstrator. To-day there are some two hundred demonstrators of whom about one hundred are in Medicine. Now-a-days the great bulk of the scientific work is done in the laboratories."

The most important statement that the Dean made, was in regard to the Dental Dept. which is under the supervision of the Faculty of Medicine. Next Autumn Dr. Thonton of To-

ronto will take charge of the whole Dental instruction in the University as Administrator of the Dental Dept. He will oversee the clinical teachings in the Dental Clinic as well as the class room in the Dental Dept. in the New Medical Building.

Dr. Thornton who is a graduate of the Royal College of Dental Surgeons has taught in that institution for a number of years with success and comes to McGill with splendid recommendations.

The Dean considered this a step in the right direction.

The recent action of the New York State Board of Regents, in putting McGill back on its list of accepted institutions was most satisfactory to the McGill authorities. It appears that the Regents considered the extra year in the McGill Medical Course compensated the rather low standard demanded in entrance Physics and Chemistry here.

The Doctor stated that at least two years in Arts with leanings towards Science ought to be demanded of those entering Medicine.

One thing led to another. So it came about that the question of admitting women to McGill Medical School was discussed. Dean Shepherd stated that in the first place there were, to his knowledge, but a very few who desired admittance and also that the proper hospital accommodations for separate teaching could not at present be secured.

"It is not a pressing question here" said the Dean in closing the interview.

Michigan.—Eight hundred persons of twenty different nationalities representing every shade of opinion, creed and ideal, crowded Newberry hall, University of Michigan, to its limit to hear a program unequalled by any previous affair ever given by the Chinese Students' club. The programme was featured by a two-act farce, written by two Chinese students of the University of Michigan.

Notes and Comments

The Boston A.A.A. team refused to play the Sherbrooke seven this week because of some objectionable rough-house artists included in the Sherbrooke line-up. Ottawa College, however, has done very well in arranging games with American teams.

"Moose" Heffernan, whose name was wont to grace the Ottawa College roster, is doing sensational work for the Toronto A. A. seven. Heffernan got into the limelight last fall by breaking quarantine to play football against Hamilton Alerts in the O.R.F.U.

W. M. G. Murphy (not Murray), who is putting up a strong game for the St. Mike's seven in the O. H. A. formerly played football with the Toronto Argonauts. As far as can be ascertained he has no intention of catering for the Rhodes Scholarship. Help!

New Edinburgh have annexed the honors in the Ottawa section of the Interprovincial Union. They trimmed Ottawa College 8-3 on Wednesday, thus winning the championship for the third successive year.

Artificial ice is now assured for the Arena next year, application having been made to the Westminster authorities for a permit to construct a building containing an artificial ice plant. The Montreal Arena Company are the applicants.

They are playing off the O. M. A. finals in Toronto now. Toronto Rowing Club handed St. Michaels a 7-2 defeat on Tuesday and have a lead of five goals on the Irish as a consequence.

Washington.—This is a sample of the Washington crew's daily menu: Breakfast, 7:30—Rolled oat mush, poached eggs, toast and milk. Lunch, 12:15.—Tomato soup, rice pudding, fruit. Dinner, 6:15.—Roast beef, mashed potatoes, parsnips, date pudding, apples, cheese, milk.

WANTED!

Men to try for positions in the Athletic and Dramatic Editorial Departments of the McGill Daily. All applicants for positions in these branches of work kindly apply at the Editorial Office of the Daily between the hours of five and six any day
